objective •

To obtain a position that will utilize and expand my present skills.

experience •

Hobby Publications, Morganville, NJ

April 97- Present

Graphic Design, Pre-Press, Web Design and Network/Computer Management

At Hobby Publications I have worked in many aspects of publishing both in print and on the Internet. I also manage our servers, network, workstations and printers.

Some of my current responsibilities include:

- Page design for two national trade magazines and a trade show.
- Checking and making advertisements to our print quality specifications.
- Creating related collateral material (media kits, brochures, promos, etc...).
- Color correction and making photo illustrations.
- Design and maintain multiple websites with dynamic content.
- Work with outside developers to make custom applications.
- Manage a network with a Windows 2000 Domain Server, a Mac OS X File Server, (20) Mac OS X and (25) Windows workstations.
- Test and implement new hardware and software technologies.

Barry Halkin Architectural Photography, Philadelphia, PA

June 95- January 97
